

The Lomond Press

VOL. 4 NO. 52

LOMOND, ALBERTA, FRIDAY, JULY 30, 1920

\$1.00 PER YEAR

As Seen by The Press

On account of the late spring irrigation was slow to show its merit, but once the hot weather set in the way the watered land outdistanced the dry land was something marvellous. Yet, in spite of all the evidence now before the people there are a few who are bucking the efforts being made to secure irrigation for this district. They advance no particular argument over and above the accepted fact that the scheme will cost considerable money. It is very satisfactory to note that, notwithstanding the conscientious objectors and absentees, it is comparatively easy to obtain the required number of signatures to float organization.

o o o

George Hoadley, M.L.A., is one of the few conservatives fighting for the continuation of the Canada Wheat Board. George thinks it is little short of a crime to throw the grain grower upon the mercy of the grain exchanges this year. He says ninety per cent of the people will be forced to sell as soon as they thresh to satisfy their creditors and the financial interests are prepared to take advantage of this condition to the enrichment of themselves. He advocating concerted action on the part of the farmers to fight for their interests by having the Wheat Board returned to power.

o o o

It is only since the hot spell set in that we people have begun to realize the asset we have in Lake McGregor. Nearly every day car loads of bathers from town take advantage of the waters and it is now considered the

one and only picnic spot.

Vulcan and west side residents have secured a grant of land from the irrigation company and will proceed to erect bath houses and sporting grounds. Their location is a little far out for the Lomond people, but we understand the irrigation company is only too willing to grant a site to Lomond somewhere on the east side of the lake. Now is the time action should be taken. It would be necessary to appoint a board of trustees which would be responsible for the design of the grounds, the administration, of funds, etc.

We may as well enjoy some of the pleasures of life, and half the pleasure is gained from creating the means from which pleasure may be obtained.

o o o

England is successfully proceeding on her program towards liquidating her national debt by two billion dollars this

year. It is generally considered that England's post war policy has been the most progressive and successful of any of the war stricken countries.

o o o

The general public does not appear to be aware that extensive oil drilling operations are at present under way in Alberta. The Monitor field is receiving a good deal of attention. Perhaps a good oil strike would slightly reduce the price of gasoline.

TENDERS WANTED

Tenders will be received for the erection of a fence around the village nuisance grounds situated on the S. E. corner of the N. E. quarter of 11-16-20, tender to supply all material and labor. Tenders will close at noon on Monday, Aug. 16th. Further particulars and specifications may be obtained from the undersigned.

SEE THE NEW

Frost & Wood Binder

WE WILL HAVE ONE ON THE FLOOR IN A FEW DAYS

The new Frost & Wood binder is going to cut a big figure on the Western Canada machinery market this fall. The Frost & Wood has always been recognized as one of the best machines made, but the new binder embodies several vitally important features but recently evolved by the world's leading mechanical scientists. This is not a freak gotten out to cover a failure, but an improvement on something already good.

Town Council in Action

A meeting of the Council was held in the Municipal office on Tuesday, July 27th, at 8 p.m., there being present H. E. Elves, L. H. Phillips and W. B. Manning.

Minutes of previous meeting were read and approved.

The question of nuisance ground was discussed and letter from The School Lands Branch of the Dept. of the Interior, and Secretary was instructed to take the matter up with C. A. Blake, present occupant of the N.E. 1/4 of 11-16-20, and secure from him an agreement of sale on the basis of the price specified in the minutes of the previous meeting.

Petition from the Board of Trade referring to fire protection was considered and it was moved by W. B. Manning that the council as a whole be a committee together with the president of the Board of Trade to go into the question fully and study the operation of fire protection plants in surrounding towns.

Estimated expenditure for the current year was then gone into and it was moved by H. E. Elves that the rate of taxation for 1920 be forty mills on the dollar.

Moved by L. H. Phillips that we call for tenders on lumber for building sidewalks from the three lumber yards in town, approximate quantity to be ten thousand square feet, to be made up of 2x6, 4x4 and 3x12 material.

Moved by L. H. Phillips that we call for tenders on four inch and six inch nails for building sidewalks, the approximate quantity to be 600 pounds.

Moved by H. E. Elves that we call for tenders for building fence around nuisance ground, tenderer to furnish all labor and material, and also for having nuisance ground fire-guarded one rod wide on four sides. Tenders to be in the hands of the Secretary by midday, Aug. 16th.

Account of P. L. Sokvitne amounting to \$1.50 was approved for payment.

LOMOND, ALBERTA, JULY 30, 1920

BOW CITY

We are still on the map and events are moving.

Much of the material for the bridge to be built at the ferry crossing has been placed on the ground. It is understood that the bridge is to be completed this fall.

Crops on the Bow Slope are good, wheat and flax especially.

The Bar U have just completed cutting an exceedingly heavy crop of alfalfa.

Crops on this side of the Bow are fair. The rain came a little to produce the "bumper crop" so much desired.

Eyremore School has been in session all summer, under the satisfactory management of Arthur Scroggie. His years overseas in active service and a year already in Edmonton University, have fitted him to fulfill his duties creditably. We wish him all success in his chosen career, and when he leaves the school the 1st. of September next, we hope the children will receive a worthy successor. Education of the children needs to be well supported. They form the only future asset of real importance.

Miss Eleanor Galbraith of Red Deer is visiting her aunt, Mrs. D. Scroggie.

Mr. Kidney is again a guest of Mr. D. Campbell. We wish him business success, but we would be sorry to have hail nevertheless.

Mr. Harold Stephenson of Montreal spent a week with his former school chum, Gordon Westgate. The former though a mere lad is making an extended trip in the West, coming out by C.P.R. and returning by C.N.R.

Miss Lewis of Toronto is visiting her sister, Mrs. Westgate, for the school holidays of July and August.

Eyremore Circuit has for its pulpit supply the service of Mr. H. Hendry, a representative of the Missionary Board of the Methodist Church. He is gathering data as to the needs of this field. This information will enable the aforesaid society to help the work here materially.

Rev. H. Bird has been transferred to Nova Scotia, Lockport. He regretted leaving the west, but the health of his wife necessitated a change for a while.

Miss Lewis of Calgary is spending some holidays with her sister Mrs. Wm. Campbell. Miss Lewis, who is supervisor for the physical culture instruction of the girls in the schools of Calgary, has just returned from a four weeks trip to the coast and American

cities in the interests of her work.

The family of Mrs. Armstrong, the Bow City postmistress, has increased to three. Her son, Walter Armstrong, is now with his parents. Walter spent five years overseas in the British transport service, was twice wounded and had thrilling experience in the big "push" of 1918.

Another returned man now a resident of the city is W. W. Wills. He saw five years service in the infantry and his bright little English wife can tell most gruesome tales of the English air raids. Mr. Wills is a nephew of C. R. Westgate.

We are sorry to lose Geo. Nixon, but wish him success in his new life. Geo. had been an employee of the C. P. R. from boyhood and though he liked the prairies, when a specially good offer was made him to return to their service he took it.

Mr. Hinchcliff, a former resident of Bow City, has recently returned from England.

The restaurant here is now open and we wish it prosperity. Mr. Way formerly managed the same kind of work at Travers and should know how it ought to be done.

WE CAN SELL YOU---

Waltham Watches at Eaton's Prices

—no need to send away for them.

If your watch needs repairing bring it to us and we will have it attended to. Costs you no more than if you sent it yourself.

HUGHES' DRUG STORE

LOMOND

ALBERTA

Mrs. Ernie Lane has her sister, Mrs. Barker, with her this summer. Also Miss Lane of Calgary spent a holiday at the Ranch.

This busy hive of farming industry and cattle and horse activity presents a pleasing feature of prairie advancement.

The irrigation insures crops and the fine new barn handsome cottage and trim outbuildings prove the value of the crops.

Bow City Tennis Club has been active. The grounds have been re-fitted and games enjoyed.

TENDERS WANTED

Tenders will be received for the erection of a fence around the village nuisance grounds situated on the S. E. corner of the N. E. quarter of 11-16-20, tender to supply all material and labor. Tenders will close at noon on Monday, Aug. 16th. Further particulars and specifications may be obtained from the undersigned.

Ball Team Playing in a Winning Streak

The Lomond base ball team has had a very busy week. On Sunday a game was played at Milo, Lomond winning an easy victory. On Tuesday the boys went to Gleichen, making another easy clean-up. Elmer Thompson pitched these game, doing very nice work. It is said that the team did some extra fine field work in these games. This has been Lomond's weakest point, perhaps more through the lack of steady playing than anything else. Personally we do not favor the practice of importing players. It kills the interest of the local men as well as the interest of the local fans. The expenditure of the same amount of money towards building up the ability of the local players is certain to produce more satisfactory results. Give the growing boys a chance. It takes young blood to keep pep into sports.

Lomond's streak of luck stayed with them through the game with Vulcan Thursday afternoon. Vulcan does not yet believe that Lomond has the best team, so is coming over on Sunday, the 8th, to administer the final dose.

Milo, Gleichen and Lomond play the tournament games at the fair.

Don't hesitate, irrigate!

ESTRAY

1 dark bay mare, white face, 4 years old, broken to work, weight between 1150 and 1200, also one black gelding, white star on forehead, 13 years old, weight about 1000, both had halters on when strayed. Orie O. Donily, Lomond.

1 red heifer, 3 years old, branded on l. r. and on r. hip

1 red 3-year-old steer, branded on r. sh.

1 red and white steer, indistinct brand on r. hip, branded on l. r.

Dated at Lomond, Alta., July 19th., 1920.

The Late Charles E. Geyer

Charles E. Geyer was born in Marrow County Ohio, Sept. 9, 1871, and died at Calgary, Alberta, July 4th. 1920, aged 48 years, 9 months and 23 days. Funeral services were held at Lomond, and at the home of W. L. Valentine, Hiawatha, Kansas. Burial was made beside his father and mother in Hiawatha Cemetery. Charles Geyer was the youngest son of Mr. and Mrs. A. R. Geyer, long residents of Hiawatha. He came to Kansas with his parents in 1880 and his boyhood, also the days of young manhood were spent near and in Hiawatha. In 1901 he went to Marysville, Kansas, where he engaged in the mercantile business with the late W. M. Nellans & Son. In 1910 he went to Southern California where he stayed a few months and from there to Alberta, where he has since resided. For several years he has been farming near Lomond, having been one of the pioneer settlers of that place, helping to change the prairie land of that district to the thriving community it now is. All of his influence and energy were directed toward the upbuilding and progressing and making his adopted home a better place to live in. Although "Lefty" as he was familiarly called by friends was young to die his years were filled with kindly deeds and goodwill to all. Friendliness was the keynote of his character, to those who needed it, quietly and unobtrusively as was his manner, he was ever ready to give help or assistance. Always cheerful, a jolly companion and a good entertainer he was a favorite with the "kiddies" and young folks. He was unmarried but leaves three brothers, three sisters, nieces and nephews and a host of friends who mourn his "going away". His health has been poor since having the flu in 1919, which he contracted when nursing a friend. "Greater love than this hath no man, that a man lay down his life for his friends."—Cont.

Geo. Hough writes us from Leeds, N. Dakota, stating that he gets lonely without The Press. George went down there a short time ago to take a position in a garage.

NOTICE

Lomond, July 27th, 1920.

To whom it may concern:

As the said S. Henderson has made the statement that the people in the vicinity of Lomond have been slandering the said Mrs. J. Henderson by using such expressions "that she should be shot" and other similar expressions; and as he refuses to mention any name in connection with the same, would any person having heard such statements please come forward and give the undersigned an opportunity to defend herself.

Mrs. J. Henderson.

Tenders Wanted

LOMOND CONSOLIDATED SCHOOL DISTRICT, NO. 20

Tenders will be received by the undersigned up till Friday, Aug. 20, 1920, for the driving of the school vans in the four divisions of the Lomond Consolidated School District, No. 127, viz: Dufferin, Deepwater, Ocean Wave and Rolling Prairie. A separate vehicle to be provided for each division. Successful tenderers will be required to furnish bonds of indemnity. The lowest or any tender not necessarily accepted.

ANDREW W. TULLOCH,
Secretary-Treasurer

Two Bits of Humor

In a crowded omnibus a stout woman vainly endeavored to get her fare out of the pocket of her cloak, which was tightly buttoned as a precaution against pickpockets. After she had been working in vain for some minutes, a gentleman seated on her right said, "Please allow me to pay your fare." The lady declined with some ascerbity, and recommenced her attacks on the pocket. After these had continued for some little time her fellow-passenger said, "You really must let me pay your fare. You have already undone my braces three times, and I cannot stand it any longer."

o o o

My mind confronts a riddle,
Whenever I take note,
Of the fishing tales of fellows,
When hard luck got their goat.

My sleep's upset by anxious doubt.
Since I have heard the tales,
About the fish that slipped away,
"The fellows big as whales".

I'm in a fearful quandary,
What can a fellow do,
When every friend will swear an oath,
"A monstrous fish slipped through".

Now who can solve my problem,
And grant my life long wish,
"Are fisherman all big liars?"
"Or do only liars fish?"

SAFETY DEPOSIT BOXES

O. C. BARBER, Manager,

Armada Gopher Contest

In order to encourage the destruction of gophers the Armada U.F.A. together with the school boards of Sunny Plains and Brunetta school districts instituted a contest open to all school children of the two districts. A bounty was offered for gopher tails and prizes offered for the highest number returned. The close of the contest was the occasion of an enjoyable picnic at Lake MacGregor on Saturday, July 24th. A total of 4150 gopher tails were turned in by 23 children who entered the contest. Fred Smith received the first prize, a No. 1 Brownie camera, and Harry Boe the second prize, a No. 2 Brownie camera. After an excellent dinner the time was spent in boating, bathing and games and races for the children. Then a ball game such as Armada only can put on and after lunch everyone departed for home declaring it a most enjoyable day. The pleasure of the day was marred by one serious accident. A boat used by some of the bathers was overturned and the contents turned out to the fishes. One Armada fan now mourns the loss of his Sunday shoes. Anyone finding a pair of No. 7 shoes cruising around as submarines on the lake will please notify Chas. Craine.

Keep the weeds down if you figure raising a crop.

NOTICE OF MEETING

The Frank Brown Company, Ltd.

Fight Down the Weeds

The cardinal point in farming at the present time is weed control. To kill the weed before the seed matures is all important. This work requires the use of efficient machinery. The Massey-Harris Company are undoubtedly specialists in building cultivation machinery. Study their theory of construction before buying.

W. A. Teskey - Lomond and Travers

LOCALETS

Dr. and Mrs. Walkey and family leave on Saturday to holiday for a couple of weeks at Gull Lake, calling on the Dr's brother at Acme on the way.

o o o

J. E. McNaughton of Regina, telephone contractor, has his gangs at work on the construction of the Lomond rural telephone system. Thus, all our suspicions over the cancellation of this year's construction program are set to rest. A total of four cars of poles have been unloaded and are now being trimmed up.

o o o

It is said that the intense heat of a week ago did untold damage to crops in certain areas through Saskatchewan and Manitoba, and even in Northern Alberta. It is estimated that the Saskatchewan wheat yield will be reduced by fifty million bushels. It would appear that South Alberta got relief rains two or three days earlier than the sister provinces, hence the damage was not so severe. In Southern Saskatchewan a cyclone accompanied by hail caused the loss of three lives and thousands of dollars worth of property. A stallion weighing 1800 pounds was carried over half a mile by the wind and set down without hurt.

o o o

R.H. Hughes has completed the erection of a new garage for his McLaughlin special.

L. E. Tibbits is down from Calgary this week.

The summer camp participated in by the Scouts and Guides and others from the south proved a great success. The boys and girls came back loaded with color.

The village council has provided an "armstrong" mower for all those who desire to cut the weeds around their property. It doesn't look as if very many have used it to date.

On account of the heat very few of the tennis tournament games have been played off.

Miss Pasach of Calgary is a guest at the T. A. Kennedy home.

**The Thresher That Sends
All The Grain Into The Bag**

MILLIONS of dollars are wasted in threshing each year in the form of grain which is fed into the separator but never reaches the bag—grain that works through to the stacker and is blown out with the straw. This is a necessary evil with the old vibrator type of thresher—but not with the Aultman-Taylor New Century.

The Aultman-Taylor New Century Thresher, equipped with the Universal Rotary Straw Rack device and Inclined Open Web, stop this loss. They thresh and save all the grain.

Universal Rotary Rack

The Universal Rotary Rack positively gets all the grain out of the straw. Its rotary action gives it double the agitation of the vibrating rack, hence double separating capacity. It moves the straw rearward in a continuous thin stream, insuring perfect separation and greater capacity. And at the same time, it saves power and stops vibration.

Four Sizes—All Standard

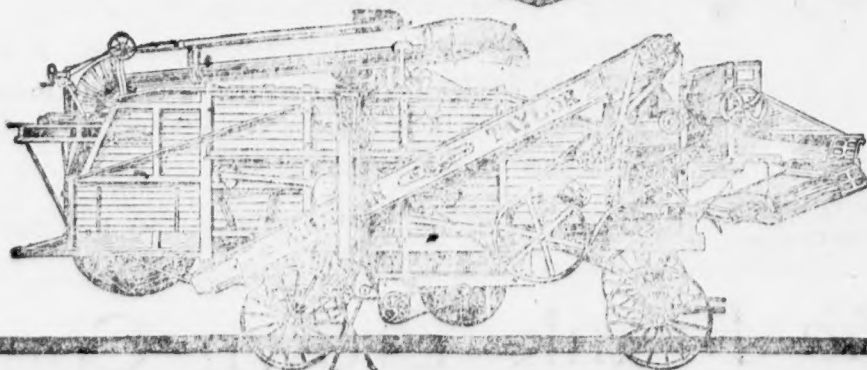

Aultman-Taylor Threshers are made in four sizes, all absolutely standard in design and construction. The sole difference between the largest and smallest New Century Thresher is one of size only. Our two smaller threshers are the ideal size for individual use with the small tractor.

We will be glad to give you any further information along this line at any time. Come in and talk it over with us now.
